

On February 29th, 2024, NISER Outreach Cell will host an exposure visit for school science teachers to celebrate National Science Day. 38 science teachers from State Government Schools in Khordha and DAV Public Schools in Bhubaneswar will participate in this event. Through hands-on demonstrations, guided tours, and discussions, participating teachers will gain valuable insights to enhance their teaching methodologies and inspire students. This event emphasises NISER's commitment to fostering a culture of scientific curiosity and innovation within the educational community.
